IDM Series

The combination of Integra console and Integra KVM Switch Module offers the latest and the most efficient way to control server rooms and multiple computers.

With a universal C-36 connector, any module can slide into the back of the TFT LCD console drawer. The module is securely locked into the drawer as an integral part of the 4-in-1 system: keyboard, touch pad, monitor and KVM switch. Keyboard mapping enables you to operate a combination of PC, Mac and Sun servers.
